

### HOMEWORK - STD VIII

ENGLISH	MATHS	PHYSICS	CHEMISTRY	BIOLOGY	SOCIAL	TAMIL
Learn the memory poems and write 1 time.	Term 3 book pg 10 sum 12,13,14. pg 15 sum 5,6. pg 72 sum II -iii	L/W short answers from heat, static electricity L/W give reason from heat,static electricity and magnetism	L/W the definitions of stoichiometry, radical, valency,variable valency	Classification of plants. Monera-Algae-Fungi.	History and Civics:Principles of Panchsheel policy and colonial urban development during British period	Poem-1-Q/A learn well
		L/W differentiation from magnetism and more about energy	1)Differentiate the following: a.cation and anion, b.simple and compound radical c.diamond and graphite	Bryophytes,Pteridophytes	Geography: Geographical factors affecting the location of industries Economics	Poem-2- memory poem L/W
Write a report on Covid -19 and the remedy measures taken by the Govt. Write a review about the movie that you have watched recently.	Term 3 book pg 18 sum 3,4,5 pg 26 sum 6,7 pg 72 sum II-i.	L/W differentiation from heat and static electricity	Refer stoichiometry learning material and derive the chemical formula for compounds 1 to 5 and calculate the molecular weight for the same.	Gymnosperms	Economics: Difference between private and public sector and objectives of public sector	Ln-1 -small Q/A L/W

ENGLISH	MATHS	PHYSICS	CHEMISTRY	BIOLOGY	SOCIAL	TAMIL
Learn answer in brief- Whole portion.	Term 3 book pg 45 Ex 2.1 sum 2 to 8. pg 72 sum III -iv pg 87 sum 8,9 pg 95 sum 4	L/W heat, static electricity long answers(1-3).	Do the balancing chemical equation for 1 -10 sums.(refer learning material)	Angiosperm (General Characters, classifications. Economic importance)	Geography:Interdependence of industry and agriculture and its significance for economic development of a country	Ln-1-detail Q/A L/W
Write a letter to your friend sharing the experience of staying at home during the month of March.	Term 2 book pg 55 sum 9, pg 79 sum 2, pg 73 sum 3. pg 24 sum 3 to 6 pg 25 sum 10,11,13,14		Learn and write the definitions of allotropy , isotropes, combustion, fuel, ignition temperature and calorific value.		Geography: Antarctica is called the continent of science. Give reason and climate of India	Grammar- Q/A L/W
Read Term-III supplementary and frame 20 questions as well as answers.	Term 1 book pg 75 sum 6, pg 80 sum 5, pg 88 sum 2,5,6.		Draw the atomic structure of 1 -20 elements . Draw the bond formation of NaCl and KCl		Civics : Explain SAARC and the principles of foreign policy	All book ex-L/W
